Frankfurt am Main, 02.10.2019 – Shimmering, shining, fleeting: with **ETHEREAL. PHOTOGRAPHIC ART FROM NORWAY** the Fotografie Forum Frankfurt (FFF) presents exceptional works about the subtleties of light from **A K Dolven**, **Dag Alveng** and **Linn Pedersen**. Through photography, video, installation and traditional photographic method the three artists dedicate themselves to the extreme qualities of Norwegian light that shape the country's mystic nature and their own desires.

**Dag Alveng** (\*1953) portrays typical summerscenes: people, relaxed in the garden, on the beach, in the forest, as well as summery landscapes. Always in the picture, glistening or cooling in the shade, is the midsummer light. **A K Dolven's** (\*1953) surreal and ironic reflections of light at the Arctic Circle are curiously timeless, in videos with herself as actor. **Linn Pedersen** (\*1982) uses a colossal camera obscura with which she photographed landscape and individuals for months, creating unusual perspectives on her own light drawings – portraits, nature, body parts, printed as cyanotypes or giclée print.

**ETHEREAL. PHOTOGRAPHIC ART FROM NORWAY** gives insight into the lively contemporary photo-art scene of Norway and presents the works of these three exciting artists for the first time together. The exhibition was curated by Celina Lunsford, Artistic Director of the Fotografie Forum Frankfurt; it is FFF's contribution to Norway's Guest of Honour programme at this year's Frankfurt Book Fair.
